

From: U.S. EPA <usaepa@govdelivery.com>

Subject: Updated Compliance Assistance and Educational Materials for RRP

The most recent amendments to the RRP regulation became effective on October 4, 2011. The regulations and associated guidance documents can be found on our webpage at <http://epa.gov/lead/pubs/renovation.htm>.

As a result of these amendments, EPA has updated compliance assistance and education materials relating to various aspects of the RRP program. These updated materials include:

New Version of Renovate Right Required

Renovate Right: Important Lead Hazard Information for Families, Child Care Providers, and Schools

<http://epa.gov/lead/pubs/renovaterightbrochure.pdf>

Renovators must now begin providing this revised version to owners and occupants. However, you may use the older version if you have printed stock remaining. In that case, please be sure to include the replacement page 10 which can be found at <http://epa.gov/lead/pubs/insert.pdf>.

Compliance Assistance Tools for Renovators, Firms, and Training Providers:

Steps to a Lead-Safe Renovation Guide

<http://epa.gov/lead/pubs/steps.pdf>

Small Entity Compliance Guide to Renovate Right: EPA's Lead-based Paint Renovation, Repair and Painting Program

<http://epa.gov/lead/pubs/sbcomplianceguide.pdf>

Paint Chip Sample Collection Guide

<http://epa.gov/lead/pubs/paintchip.pdf>

Sample Renovation Recordkeeping Checklist

<http://epa.gov/lead/pubs/samplechecklist.pdf>

Renovation Firm Application for Certification Form and Instructions

<http://epa.gov/lead/pubs/firmapp.pdf>

Compliance Assistance and Education Materials for Accredited Training Providers Only:

Training Provider Application for Accreditation Form and Instructions

<http://epa.gov/lead/pubs/trainapp.pdf>

Instructions for Accredited Training Providers

<http://epa.gov/lead/pubs/trainerinstructions.htm>

Renovator Initial Certification Course Materials (source files) – Student, Instructor

<http://epa.gov/lead/pubs/epahudrrmodel.htm>

Renovator Refresher Certification Course Materials (source files) – Student, Instructor

http://epa.gov/lead/pubs/epahudrrmodel_refresher.htm

As a reminder, currently 12 states are authorized to have their own RRP program in lieu of the EPA Federal program. These states are Alabama, Georgia, Iowa, Kansas, Massachusetts, Mississippi, North Carolina, Oregon, Rhode Island, Utah, Washington, and Wisconsin. If you are operating in any of these states, be sure you are certified by that state and comply with those regulations. If you do business in more than one state, you may need both EPA and state certification. For more information on EPA and State programs, go to http://www.epa.gov/opptintr/lead/pubs/lscp-renovation_firm.htm.
